LAST UPDATED: 04/07/20 (UPDATED DAILY AT 2 P.M.) *<1% SEX NOT REPORTED
Regional Breakdown of cases:

West Central Ohio Confirmed COVID-19 Cases As of 4/7/20

CDC Update (Situation in the US):

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus named COVID-19. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other international locations, including the United States. CDC will update the following U.S. map daily. Information regarding the number of people under investigation will be updated daily.

CDC Response Updates:

- CDC has issued the following travel guidance related to COVID-19:
  - Widespread ongoing transmission with restrictions on entry to the U.S.
  - China
  - Iran
  - Most European Countries
  - United Kingdom and Ireland
  - Widespread ongoing transmission without restrictions on entry to the U.S.
  - South Korea
  - Ongoing community transmission
World Health Organization Update:

• One new country/territory/area reported cases of COVID-19 in the past 24 hours: São Tomé and Príncipe.

• Today, 7 April, marks World Health Day and this year WHO pays tribute to the incredible contribution of all health workers, especially nurses and midwives. Nurses are the largest component of the health workforce and play a fundamental role in combatting COVID-19 and achieving Universal Health Coverage and the Sustainable Development Goals. WHO has published the first-ever report on the state of the world’s nursing workforce. It renews calls on governments to invest in nurses.

• WHO, Lady Gaga and Global Citizen have announced a concert to air on Saturday, 18 April 2020 titled 'One World: Together at home'. This globally televised and streamed special will highlight unity among all people affected by COVID-19, celebrate the brave healthcare workers doing life-saving work, and raise funds for the response.

• WHO Director-General Dr Tedros, in a press conference held yesterday, reiterated concerns regarding the shortage of medical masks and other PPE and reminded people that masks should be used as part of a comprehensive package of interventions. WHO has released guidance on the use of masks in communities, during home care, and in healthcare settings.

• WHO is improving supply networks and logistics in clinical environments, and sending equipment and testing kits worldwide.
Distribution of COVID-19 cases worldwide, as of 7 Apr 2020

Distribution of COVID-19 cases continent (except China), as of 7 Apr 2020 (according to the applied cases definition in the countries)

Distribution of COVID-19 deaths worldwide, by continent
Current Objectives:
1. Limit the spread of disease within Montgomery County.
2. Continue to monitor the situation in conjunction with the Ohio Department of Health and the Centers for Disease Control and Prevention.
3. Continue information sharing with partners.
4. Continue to provide information to the media and the public through interviews, social media and our website.

Long-term Planning Considerations:
Continued monitoring and maintaining surveillance locally.

Epidemiology Syndromic Surveillance Summary:
Below are links to both the CDC and WHO regarding the latest information.
