

Complaint Process

MCM 4 – Construction Site Stormwater Runoff Control

City of Huber Heights, Ohio

To report construction site issues of concern, please call Russ Bergman, City Engineer, at (937) 237-5816. The issues could include any of the following:

- Sediment-laden stormwater runoff leaving a construction site during a rainfall event. This could be either sediment-laden runoff in a stream or on an adjacent street.
- Excessive mud tracked onto a street adjacent to a construction site.
- Excessive debris on and around a construction site.

The City Engineer will address the complaint within 48 hours and take the appropriate steps to address the matter. The complaint can also be submitted by email to rbergman@hhoh.org.
